PROFESSIONAL SUMMARY

Junior Full-Stack Developer with hands-on experience building Next.js, TypeScript, C#, ASP.NET Core, and PostgreSQL applications. Developed and deployed an independent multi-tenant SaaS product with automated isolation tests; contributed database and API features within a six-person engineering team.

TECHNICAL SKILLS

Languages	TypeScript, JavaScript, C#, Java, SQL
Frontend	React, Next.js, Angular, HTML, CSS, Tailwind CSS
Backend	ASP.NET Core, Node.js, REST APIs, Authentication & Authorization
Data	PostgreSQL, SQL Server, Prisma, Entity Framework Core
Tools	Git, GitHub, Docker, Postman, Jira

PROFESSIONAL EXPERIENCE

Software Engineer Intern | TechTalks

Aug 2026 – Oct 2026

Remote

- Designed and updated Prisma schemas for property, maintenance-request, and checklist data in Baytak Care.
- Implemented owner/caretaker access controls, caretaker request submission, and maintenance-request approval/rejection API functionality.
- Collaborated in a six-person team using Jira, feature branches, pull requests, and code reviews.

SELECTED PROJECTS

Dealer SaaS | Multi-Tenant Dealership Management Platform

Aug 2026 – Present

Next.js, TypeScript, PostgreSQL, Prisma, Docker • github.com/alikassem877/dealer-saas

- Independently built and deployed a dealership platform for vehicle, customer, lead, and sales workflows; ongoing development toward a subscription product.
- Derived tenant IDs only from authenticated JWT sessions across API routes, never client input; verified ownership on direct-ID requests and returned 404 for inaccessible records.
- Validated list and direct-ID isolation with automated integration tests simulating cross-tenant access by two independent tenants.

Baytak Care | Remote Property Monitoring Platform

Aug 2026 – Oct 2026

Next.js, TypeScript, PostgreSQL, Prisma • Team project (private repository)

- Property-management system with owner/caretaker roles, relational property records, maintenance requests, and approval workflows.

BankSystem | Banking Backend Application

In Development

C#, ASP.NET Core, Entity Framework Core, SQLite

- Building a layered backend (API, Application, Domain, Infrastructure) with account/transaction models and persistence.

EDUCATION

Technical License in Information Technology – Software

2023 – 2026

Al-Afaq Institutes for Information & Technology

CERTIFICATIONS

- Responsive Web Design — freeCodeCamp (Feb 2025)
- HorizonCraft — CCIA-BML & MIDAL Organization (Sep 2026)

LANGUAGES

Arabic (Native) | English (Professional Working Proficiency)
